Creating the Washington promise scholarship.

Declares an intent to strengthen the link between postsecondary education and K-12 education by creating the Washington promise scholarship program for academically successful high school graduates from low and middle-income families.

Finds that, increasingly, an individual's economic viability is contingent on postsecondary educational opportunities, yet the state's full financial obligation is eliminated after the twelfth grade. Students who work hard in kindergarten through twelfth grade and successfully complete high school with high academic marks may not have the financial ability to attend college because they cannot obtain financial aid or the financial aid is insufficient.

SB 5419 by Senators Patterson, Long, Hargrove, Kline, Winsley and Kohl-Welles

Providing chemical dependency treatment for certain offenders.

Finds and declares that:

(1) Substance abuse treatment is a proven public safety and health measure. Nonviolent, drug-dependent criminal offenders who receive chemical dependency treatment are much less likely to abuse drugs and commit future crimes, and are more likely to live healthier, more stable, and more productive lives;

(2) Community safety and health are promoted, and taxpayer dollars are saved, when nonviolent persons convicted of drug possession or drug use are provided appropriate community-based treatment instead of incarceration;

(3) In 1996, Arizona voters by a 2-1 margin passed the drug medicalization, prevention, and control act, which diverted nonviolent drug offenders into chemical dependency treatment and education services rather than incarceration. According to a report prepared by the Arizona supreme court, the Arizona law is "resulting in safer communities and more substance abusing probationers in recovery," has already saved state taxpayers millions of dollars, and is helping more than seventy-five percent of program participants to remain drug free.

Declares the purpose and intent in enacting this act to be as follows:

(1) To enhance public safety by reducing drug-related crime and preserving jails and prison cells for serious and violent offenders, and to improve public health by reducing drug abuse and drug dependence through proven and effective chemical dependency treatment strategies;

(2) To halt the wasteful expenditure of millions of dollars each year on the incarceration and reincarceration of nonviolent drug users who would be better served by community-based treatment; and

(3) To divert from incarceration into community-based substance abuse treatment programs nonviolent drug offenders and offenders under supervision in the community convicted of simple drug possession or drug use offenses.

(2) is in addition to those programs offered by employers;

(4) reduces the impact on state income-support programs by increasing an individual's ability to provide care-giving services for family members while maintaining an employment relationship.

Continuing health care benefits for individuals with disabilities.

Finds that individuals with disabilities face many barriers and disincentives to employment. Individuals with disabilities are often unable to obtain health insurance that provides the services and supports necessary to allow them to live independently and enter or rejoin the work force.

Finds that there is a compelling public interest in eliminating barriers to work by continuing needed health care coverage for individuals with disabilities who enter and maintain employment.

Declares an intent to strengthen the state's policy of supporting individuals with disabilities in leading fully productive lives by supporting the implementation of the federal ticket to work and work incentives improvement act of 1999, Public Law 106-170. This shall include improving incentives to work by continuing coverage for health care and support services, by seeking federal funding for innovative programs, and by exploring options which provide individuals with disabilities a choice in receiving services needed to obtain and maintain employment.
